EXAMPLES OF INTERESTING PROJECTS

- 5,000+ technologists and counting – are dedicated to advancing and building new solutions for the Bloomberg Terminal in order to solve complex, real-world problems. No other company processes the breadth and depth of financial data into meaningful and actionable information as well as we do.
- Our engineers, developers, and data scientists work together to roll out new software daily that integrates seamlessly and immediately into our clients' workflows.
- Our technology expertise is changing the world and makes a positive impact in our local communities. Bloomberg engineers are active members of the open source community, contributing to and implementing open source code in our products.
- 85% of our company profits go directly to Bloomberg Philanthropies to support lasting change in the environment, government innovation, education, arts, and public health.
