

Optiver

Optiver is a global market maker with offices in Amsterdam, London, Chicago, Austin, Sydney, Shanghai, Hong Kong, Singapore and Taipei. Over thirty-five years ago, we started business as a single trader on the floor of Amsterdam's European Options Exchange. Today, we are a leading liquidity provider, with more than 1400 employees in offices around the world, united in our commitment to improve the market by competitive pricing, execution and thorough risk management. By providing liquidity on multiple exchanges across the world in various financial instruments we participate in the safeguarding of healthy and efficient markets. We provide liquidity to financial markets using our own capital, at our own risk, trading a wide range of products: listed derivatives, cash equities, ETFs, bonds and foreign currencies.

PERKS AND CULTURE

- Signing bonus
- Tuition reimbursement and training
- Health Coverage
- Wellness program
- Retirement plan
- Travel
- Community/social outreach
- Sustainability/green initiatives
- Weekly Massages
- Catered breakfast and lunch daily
- In-house café
- Snacks and beverages
- Generous PTO
- Weekly happy hours
- Optiver Weekend

EXAMPLES OF INTERESTING PROJECTS

- Optiver interns are assigned real business projects that are delegated straight off of their mentor's desks. Optiver has a very quick production cycle, so our interns get to see their projects implemented into production before the end of their internship. See below for some examples:
- Trader Interns used historical volatility and stock price data to build predictive trading strategies for Tesla options
- Software Engineer Interns built a system to trade multiple products together in one auto trader using C or C++
- Hardware Engineer interns designed and deployed optimizations to low-latency hardware execution strategies and investigated their success rates
