

In Conclusion: BLIS Is An Ideal Match For Java

COMING SOON: *PythonBLIS!

- BLIS is a hardware neutral library
 - Best in class performance on dozens of hardware platforms
 - Quick to port – we add a new platform each month
- BLIS is cutting edge, well supported, and under active development
 - Significant new features have been added every single year
- BLIS has an Object API, but it's written in C
 - C/C++ header code doesn't work in other languages
- Expanding BLIS to Java will reach an order of magnitude more users
