

Accessing ACL2 Through Jupyter Notebooks

- What is a Jupyter notebook and why? <https://jupyter.org/try>
 - Understanding cells
 - Markup language
 - Code cells
 - Ordering between cells and confusing users
 - Kernels (for Python and other languages)
- An ACL2 Kernel
 - Open Source (in PyPI)
 - Easily installed via Docker images
- ACL2 Tutorials in the Docker images
- ACL2 assignment for RSA
- Future
 - Even easier installation
 - ACL2 on the web, with tutorials, graded exercises, classroom support, etc.
